ALI HAMZA

NEBOSH-IGC CERTIFIED | HSE / SAFETY OFFICER | RF ENGINEER

■ (+92)315 4533914 | ■ Hamzaxali44@gmail.com ▪ Renala Khurd, District Okara, Pakistan
■

PROFESSIONAL SUMMARY

NEBOSH IGC-certified Safety Officer with a strong technical foundation in telecommunications engineering. Over **2 years of experience** in high-risk field environments including tower climbs, RF equipment installations, LTE network deployments, and live site commissioning. Hands-on expertise in **risk assessment, permit-to-work systems, incident investigation, and safety audits**. Combines deep technical RF knowledge with formal HSE qualifications to deliver practical safety leadership in construction, telecom, and industrial sectors. Seeking HSE/Safety Officer roles in the **Gulf, Europe, or Turkey**.

KEY QUALIFICATIONS & CERTIFICATIONS

NEBOSH IGC – Occupational Health & Safety	Bilal Consultancy (Private) Limited	2025–2026
Risk Assessment	BGMC	2025
Permit To Work (PTW)	BGMC	2025
Introduction to Fire Safety Significance	BGMC	2025
Certified Lean Six Sigma Yellow Belt	BGMC	2025
Certified Lean Six Sigma White Belt	BGMC	2025
Effective Leadership	HP Life	2024

CORE COMPETENCIES

Health & Safety

Risk Assessment & Hazard Identification
Permit-to-Work (PTW) Systems
Incident Investigation & Reporting
Fire Safety & Emergency Response
Safety Audits & Compliance Inspections
Toolbox Talks & Safety Briefings
PPE Management & Site Supervision

Technical / RF Engineering

LTE/3G/2G Network Optimization
Drive Testing & Signal Analysis
Site Acceptance & Commissioning
KPI Troubleshooting & Coverage Analysis
Cross-functional Team Coordination
Tower Climb Safety Protocols
RF Exposure Risk Management

Digital & Tools

TEMS Investigation
NEMO Outdoor | PHU
G-NetTrack | Google Earth Pro
MS Word, Excel, PowerPoint
QA Documentation & Bug Tracking
Safety Reporting & Metrics Analysis

PROFESSIONAL EXPERIENCE

RF ENGINEER

GSC Huawei Pakistan | May 2025 – Oct 2026| Pakistan

- Enforced HSE protocols during LTE rollout across multiple sites, ensuring compliance with Huawei and client safety standards
- Conducted daily safety inspections, risk assessments, and permit-to-work reviews for tower climbs and RF equipment installations
- Performed incident investigations for safety events and near-misses, implementing corrective actions to prevent recurrence
- Coordinated with customer safety representatives for site acceptance meetings and safety compliance verification
- Analyzed daily safety metrics and KPIs, recommending improvements for high-risk field activities
- Optimized LTE rollout sites: Coverage, RSRP, SINR, Cell Reselection, Redirection, Missing Neighbors
- Troubleshot low throughput issues (Poor SINR, RSRP, Power of Site, CQI, Transmission)
- Resolved VIP customer complaints related to safety incidents and network performance

RF ENGINEER III

Turnotech Pakistan | May 2024 – May 2025 | Pakistan

- Led safety briefings and toolbox talks for field teams prior to high-risk activities including tower climbs
- Performed SSV(Single Site Verification) for integrated sites with strict adherence to climbing safety and RF exposure limits
- Conducted risk assessments for antenna adjustments, ensuring fall protection and PPE compliance
- Analyzed and resolved VIP complaints, addressing call drops, CSFB failures, and high interference issues
- Adjusted antenna orientations, tilt, and azimuth for improved signal coverage while maintaining safety protocols
- Performed extensive testing including CS/PS calls, IRAT, cell reselection, and throughput analysis
- Documented safety incidents and near-misses, contributing to monthly HSE performance reports

EDUCATION

BS Hons.

Government College University, Faisalabad | 2017 – 2021

LANGUAGES

- • **Urdu** — Native •**English** — Professional Working Proficiency

PERSONAL ATTRIBUTES

Quick learner with a hands-on approach • Strong teamwork and collaboration • Safety-conscious mindset developed through high-risk fieldwork • Adaptable to multicultural environments • Immediate availability for relocation to Gulf, Europe, or Turkey
